Tilt Truck-500

Measures	
Length	4 ft 7 in.
Width	23.79 in.
Height	2 ft 9 in.
Collection capacity	
500 L (132 US gal)	
Colors	

The material of the Tilt Truck is medium-density polyethylene through a rotational molding process which grants it higher resistance.
It dumps forward, facilitating its discharge.
The round and smooth interiors make it easy to clean.
It includes four casters for easy transportation.
It has the option of adding a metallic frame and a polyethylene lid.

Tilt Truck-750

The material of the Tilt Truck is medium-density polyethylene through a rotational molding process which grants it higher resistance.
It dumps forward, facilitating its discharge.
The round and smooth interiors make it easy to clean.
Four casters for easy transportation.
It has the option of adding a metallic frame and a polyethylene lid.

Measures	
Length	5 ft
Width	30.61 in.
Height	3 ft 1 in.
Collection capacity	
750 L (198 US gal)	
Colors	

MADE IN MEXICO

Tilt Truck-1000

Measures	
Length	5 ft 10 in.
Width	2 ft 11 in.
Height	3 ft 2 in.
Capacity	
1000 L (264 US gal)	
Colors	

The material of the Tilt Truck is medium-density polyethylene through a rotational molding process that gathers higher resistance.
It dumps forward, facilitating its discharge.
The round and smooth interiors make it easy to clean.
It includes wheels for easy transportation and a metallic frame. It has the option of adding a polyethylene hatch lid.

Industry Line

Mobile Cart 1

The mobile cart consists of a container made of medium-density polyethylene with built-in handles, a tubular structure with dual protection against corrosion, and three wheels for easy transportation.

Measures	
Length	25.35 in.
Width	23.79 in.
Height	3 ft 4 in.

Basket Truck 360-A

This basket truck is made of medium-density polyethylene through a rotational molding process. Easy to handle due to its four wheels. The smooth interiors make it easy to clean.

Measures	
Length	4 ft 5 in.
Width	21.25 in.
Height	23.20 in.
Capacity	
360 L (95 US gal)	
Colors	

Basket Truck 390-A

Measures	
Length	3 ft 7 in.
Width	19.50 in.
Height	27.69 in.
Capacity	
390 L (102 US gal)	
Colors	

The material of these Bulk Box Trucks is medium-density polyethylene through a rotational molding process that gathers higher resistance. They are easy to stack due to its conical design. The round and smooth interiors make them easy to clean and they also have UV protection. The Bulk Box Trucks have the option of adding four casters or a metallic structure with four casters. They come in three different capacities.

Bulk Box Truck 450

Measures
Length 3 ft 7 in.
Width 29.64 in.
Height 28.08 in.
Capacity
450 L (175 US gal)
Colors

Bulk Box Truck 900

Measures
Length 4 ft 4 in.
Width 3 ft 1 in.
Height 30 in.
Capacity
900 L (237 US gal)

Rudo-100
Rough Trash Container

This Rough Trash Container
is made of medium-density polyethylene.
The airtight lid
avoids the leaking of bad odors
and sources of infection.
The round and smooth interiors
make it easy to clean.
Impact and weather resistant.
It's manufactured
under international norms and standards.

Measures	
Length	16.96 in.
Width	16.96 in.
Height	27.88 in.
Capacity	
100 L (26 US gal)

B-145
Waste Container

Measures	
Length	20.67 in.
Width	16.38 in.
Height	2 ft 7 in.
Capacity	
145 L (38 US gal)	
Colors	

Made of medium-density polyethylene.
The airtight lid avoids the leaking
of bad odors and sources of infection.
The round and smooth interiors
make it easy to clean.
Easy to maneuver due to its conical shape.
UV protection.

PLAS-200
Waste Container

Measures	
Diam.	24.57 in.
Height	3 ft
Capacity	
200 L (52 US gal)	
Colors	

Made of medium-density polyethylene.
The detachable lid is useful
for concealing waste and avoiding bad odors.
The round and smooth interiors
make it easy to clean.
Easy to maneuver due to its cylindrical shape.
It has the option of adding three casters
for better transportation.
UV protection.

TAM-200
Plastic Drum

Measures	
Diam.	22.85 in.
Height	2 ft 11 in.
Capacity	
200 L (52 US gal)	
Colors	

Made of medium-density polyethylene.
The screw-top avoids spills.
The round and smooth interiors
make it easy to clean.
Easy to maneuver due to its cylindrical shape.
UV protection.

50 L
Waste Oil Container

Made of medium-density polyethylene.
It has a screw-top
and a funnel-shaped nozzle.
Two top handles for better grip.
It's specially designed for liquid waste.
UV protection.

Measures	
Length	15.79 in.
Width	8 in.
Height	2 ft 11 in.
Capacity	
50 L (13 US gal)

200 Waste Oil Container

Measures	
Diam.	24.57 in.
Height	3 ft 9 in.
Capacity	
200 L (52 US gal)	
Colors	

Made of medium-density polyethylene.
The lid fills better thanks to its funnel shape.
It's specially designed for liquid waste.
It has the option of adding three casters
for better transportation.
The round and smooth interiors
make it easy to clean.
UV protection.

1000 Waste Oil Container

Made of medium-density polyethylene.
It has an airtight lid.
It's specially designed for solid
and liquid waste.
The round and smooth interiors
make it easy to clean.
UV protection.

Measures	
Diam.	3 ft 6 in.
Height	5 ft 8 in.
Capacity	
1000 L (264 US gal)	
Colors	

Drum funnel with lid

Measures	
Diam.	19.89 in.
Height	8.30 in.
Pourability	
20 L (5 US gal)	
Colors	

Made of medium-density polyethylene
through a rotational molding process.
It covers the top of the 200 L drums
for easy and clean emptying.
Enables passive draining of paint cans,
bottles and other containers.
It includes a lid that prevents contamination.
UV protection.

Battery Recycling Container

Measures	
Length	8.97 in.
Width	4.17 in.
Height	17.35 in.
Weight	
1.81 lb.	
Colors	

The material of this container
is polystyrene which gathers
the highest quality and resistance.
Its dented body
avoids water or dirt accumulation.
UV protection.
Low costs of investment
and maintenance.

Maxi-Battery
Battery Recycling Container

Made of medium-density polyethylene
through a rotational molding process
that gathers higher resistance.
Heavy-duty container.
It features a double compartment
to separate the batteries.
UV protection.

Measures	
Length	11.70 in.
Width	7.41 in.
Height	21.84 in.
Weight	
10.56 lb.	
Colors	

Debris Chute System

Made of medium-density polyethylene
through a rotational molding process
that gathers higher resistance.
It facilitates the withdrawal of waste
from construction and renovation sites
regardless of height.
You will need to place
the Hopper Chute first,
before the number of Debris Chutes
you require.
UV protection.

Barremax

Multi-surface Upright Broom

The upright broom consists of a base made of polyethylene and bristles of wood.
Natural wood stick.
It will last approximately two months on hard sweeping.
It can be labeled with your logo or the type of material it contains (optional).

Measures
Handle: 1.09 in. Total length: 6 ft 8 in.

Hexagonal Waste Container 2000

Perfect for waste collection in gas stations or service centers.
The material of the detachable lid and the container is medium-density polyethylene.
The lid has an opening of 7.8 in.

Measures
External diameter: 22.23 in. Inner diameter: 19.50 in. Height: 2 ft 9 in.
Capacity
100 L (26 US gal)
Colors

SW25 Lifebuoy

Made of medium-density polyethylene and filled with polyurethane foam.
It includes four white SOLAS grade reflective stripes.
UV protection.
It has four holes to attach the rope.

Measures
External diameter: 29.25 in. Inner diameter: 17.55 in. Height: 4.29 in.
Colors

Bus Tub 20

Made of medium-density polyethylene.
UV protection.
Stackable design.

Measures	
Length	21.06 in.
Width	14.82 in.

SUPER PALLET BINS

The material of the Super Pallet Bins is Food Grade HDPE. They are designed for the harvest, transport, and storage of fruits, vegetables, and others. They have resistance to acid and alkaline agents. Since they feature double walls in the center and on the sides, they have higher resistance. They come with a 4-way entry and can have vented or closed walls. Stackable. They have two grafts for better handling and stacking load, 4.4 US ton (seven bins maximum.) It has the option of adding a lid.
