

OUTDOOR PICNIC BENCH

CODE: PIC-NIC

DESCRIPTION

The Picnic Bench is designed to provide a practical, durable, and low-maintenance solution for outdoor recreational spaces. This picnic-style unit, consisting of an integrated table and benches, is manufactured from high-strength polymer through a rotomolding process for high structural strength and excellent impact resistance without deformation.

It is the perfect option for parks, green areas, sports facilities, schools, rest areas, outdoor dining spaces, and public recreational zones.

FEATURES

- Will not splinter or break and delivers outstanding long-term durability
- Features a consistent aesthetic with smooth, easy-to-clean surfaces
- Made with plastic wood planks
- Water-, pest-, and UV-resistant for outdoor performance
- Enhanced with protective additives to shield the bench from sun exposure
- Designed for stability during frequent, everyday use
- A great option for families, student groups, and visitors

Weather-change resistant

Manufactured from recyclable and sustainable materials

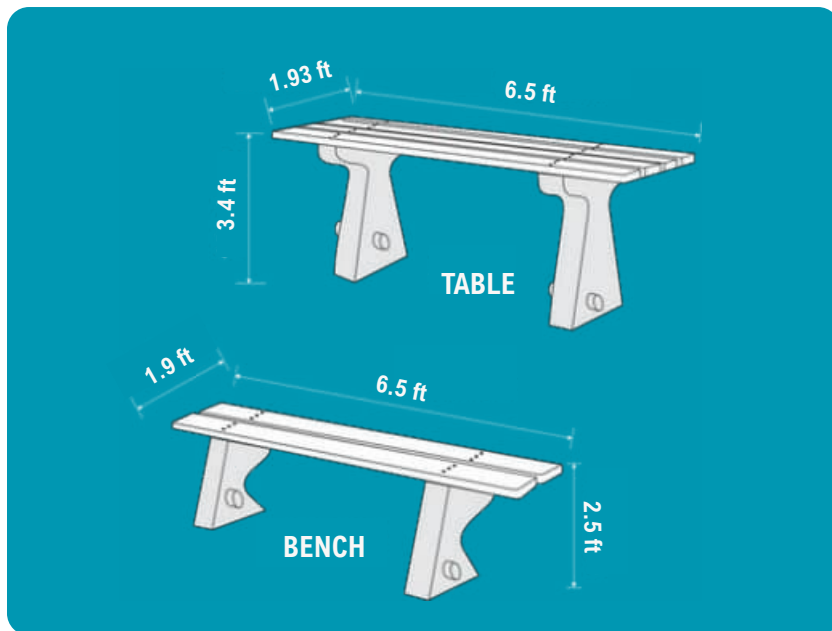

Resistant to impacts and deformation
