

CCU 24

SQUARE WASTE CONTAINER

DESCRIPTION

The material of the **CCU 24 Waste Container** is medium-density polyethylene made through a rotational molding process which gathers higher resistance to impacts and avoids deformations. It has two parts: a container and a lid.

- It has UV protection.
- Highly resistant to any weather conditions.
- Square-shaped.
- It has different inlets to differentiate types of residues: circular, slot, and square.
- A detachable square, circular, and rectangular lid.

FUNCTIONALITY

The **CCU 24 Waste Container** is perfect for indoor waste separation.

- It serves to deposit waste and keep public spaces clean.
- You can discharge the waste by lifting the lid or bending the waste container for complete emptying.
- Easy to clean.
- Avoids sources of infection.
