

Embedded pole

Displayed pole

DESCRIPTION

- The **POPYCAN**, made of medium-density polyethylene, is designed to receive and contain dog feces.
- The POPYCAN has UV protection which avoids sun fading.
- Weather-resistant.
- Low maintenance.
- It has the option of adding a system that helps put the dog waste bags easier.
- The "V" shaped lid prevents the odors from leaking and blocks the vision of the waste.
- It includes a safety key for street cleaners.
- Tubular support of 2" 30 gauge with sphere finish. It has three anchoring options (displayed, embedded, or drilled).

CUSTOMIZATION

It can be labeled with the legend of the type of material it contains or your logo according to your needs.

FUNCTIONALITY

The POPYCAN is perfect for disposing of dog feces.

- It's ideal for parks, dog parks, or outdoor areas.
