

TILT TRUCK-1000

DESCRIPTION

The material of the **TILT TRUCK-1000** is medium-density polyethylene in one piece through a rotational molding process that gathers higher resistance to impacts and avoids deformations.

- UV protection.
- Highly resistant to weather conditions.
- Four casters for easy transportation.
- The design makes it dump forward facilitating its discharge.
- The metallic frame has double protection against rust and corrosion generated by rainwater and other weather conditions.
- Optional hinged lid made of medium-density polyethylene.

FUNCTIONALITY

- The **Tilt Truck-1000** is perfect for trash collection and the separation of different types of residues.
- Ideal for trash collection on public roads.
- Manual discharge.
- Easy to clean.
- Avoids sources of infection.
