

# STREET CLEANING CART 360 HD

## DESCRIPTION

- The material of the **BAR-360 HD** trash can is HDPE. Its density complies with the highest fluidity conditions and has high resistance to hits and bumps. The body is manufactured in one piece without riveted parts; this helps avoid stress points or fragility that could affect its resistance.
- It has two pieces: body and lid.
- Attachments to place a broom and a shovel.
- UV protection.
- The slightly concave lid avoids the retention of dust or water.
- The handle on the lid makes for better discharge or storage.
- Its body has a smooth interior and rounded corners that avoid the accumulation of residues.
- Two PVC wheels of 8" fixed to a galvanized steel axle for better transportation.
- Low costs of investment and maintenance.
- It complies with the ANSI Z245.30-2008 and the ANSI Z245.60-2008 standards.

## FUNCTIONALITY

- The trash can **BAR-360 HD** design makes for an easy manual or automatic transfer of residues.
- Since it doesn't have edges or defects, it facilitates cleaning and discharge.
- The lid, slightly larger than the body, achieves hermetic sealing; this prevents the leakage of bad odors and sources of infection and water from entering.
- Its stackable feature makes it save on transport costs (only the first has wheels).

## CUSTOMIZATION

We can label it with the legend of the type of material or your logo according to your needs.

## FEATURES

**CAPACITY:** 360 L (95 US gal)

**WEIGHT:** 48.84 lb.

**COLORS:** Green, gray, or blue (other colors upon request).

### MEASURES:

**Length:** 33.26 in.

**Width:** 26.13 in.

**Height:** 3 ft 10 in.

Volumes, dimensions, and other measures are nominal and may vary by approximately 2%.
