## PALLET BIN 580/760/825

## CUSTOMIZATION

It can be labeled with the legend of the type of material it contains or your logo according to your needs.

## DESCRIPTION

- It efficiently preserves the product's integrity and helps reduce waste to farmers, packaging companies, and other products in the same storage.
- It withstands daily heavy-duty use.
- It can store from auto parts to consumer goods.
- It reduces transport costs.
- The German Bin's hygienic grade avoids contamination with germs and bacteria.
- The smooth walls and rounded corners facilitate cleaning and avoid solid or liquid product residues.
- The material of the German Bin complies with FDA standards.

## EASY TO TRANSPORT AND STORE

- The bins can be stacked together due to their dimensions and save storage space. These make their transportation practical since you can carry more bins in less space.

## STACKABLE

- The design of the legs works to fit perfectly with the inferior bin. In this way, we guarantee the balance of the bins at the time of stacking.
- The bins can't be stacked with wood or plastic containers from other manufacturers.

## FEATURES

- Made of Food Grade HDPE.
- Light, solid, and resistant.
- It doesn't conserve bacteria and doesn't splinter.
- It can have mesh.

- Maximum resistance to acid, neutral, and alkalinizing agents.
- Labeling space.
- Lower outlets that avoid liquid accumulation.
- Lower outlets that avoid liquid accumulation.
- The wall interiors are smooth and free of edges.
- Discharge valve (optional).
- Lid and legs (optional).
- Forklift space.
