

ISOTHERMAL BIN

835

DESCRIPTION

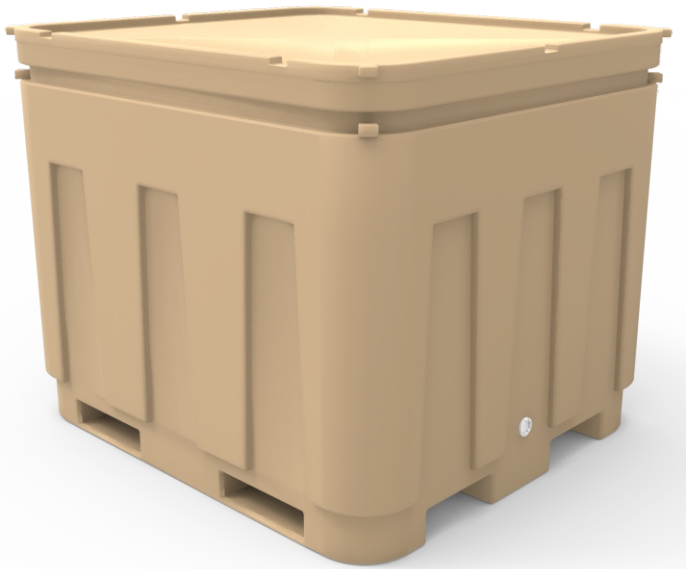

The **ISOTHERMAL BIN 835**, made of medium-density polyethylene, gives greater resistance to impacts and avoids deformations.

- It has resistance to any kind of treatment and under the worst conditions.
- UV protection.
- Weather-resistant.
- It has a forklift space for a three-pallet capacity.
- Drain plug.
- The inner rounded edges don't allow any product or water buildup.
- It has a polyurethane foam fill that works as an insulating material and preserves the temperature for 3 to 4 days.
- Detachable lid and hermetic sealing.

FUNCTIONALITY

The **ISOTHERMAL BIN 835** was designed for product storage that requires a stable temperature.

- Suitable for the management, treatment, storage, and transport in the best conditions of every product that needs preservation.

CUSTOMIZATION

It can be labeled with the legend of the type of material it contains or your logo according to your needs.
