

VIC-360 HD

DESCRIPTION

- The material of the **VIC-360 HD** trash can is HDPE. Its density complies with the highest fluidity conditions and has high resistance to hits and bumps. The body is manufactured in one piece without riveted parts; this helps avoid stress points or fragility that could affect its resistance.
- It has two parts: body and lid.
- UV protection.
- The slightly concave lid avoids the retention of dust or water.
- The handle on the lid makes for better discharge or storage of waste.
- Its body has a smooth interior and rounded corners that avoid the accumulation of residues.
- Two PVC wheels of 8" fixed to a galvanized steel axle for better transportation.
- Low costs of investment and maintenance.
- It complies with the ANSI Z245.30-2008 and the ANSI Z245.60- 2008 standards.

FUNCTIONALITY

- The design of the trash can **VIC-360 HD** makes for an easy manual or automatic transfer of residues.
- Since it doesn't have edges or defects, it facilitates the cleaning and discharge of waste.
- The lid, slightly larger than the body, achieves hermetic sealing; this prevents the leakage of bad odors and sources of infection and water from entering.
- The stackable feature of the trash can makes its transportation easy (max. 8). Only the first has wheels.

CUSTOMIZATION

We can label it with the legend of the type of material or your logo according to your needs.

FEATURES

CAPACITY: 360 L (95 US gal).

APPROX. WEIGHT: 32 lb.

COLORS:

MEASURES:

Length: 33.34 in.

Width: 24.18 in.

Height: 3 ft 7 in.

Volumes, dimensions, and other measures are nominal and may vary by approximately 2 %.
