

# WASTE CONTAINER VIC-1000

## DESCRIPTION

- The material of the **Waste container VIC-1000** is medium-density polyethylene that gathers the highest fluidity conditions and the highest resistance to hits and breaks.
- Heavy duty.
- It has resistance to UV rays, weather conditions and chemicals.
- It has two parts: body and lid; it has the option of adding pickup pockets.
- The lid, slightly larger than the body prevents the leakage of bad odors and sources of infection and water from entering.
- Its body has a smooth interior and rounded corners that avoid the accumulation of residues.
- It has four tractor-type caster wheels of 6" Ø that improve its transportation.
- Low costs of investment and maintenance.
- It's manufactured under international norms and standards for working with an automated waste collection system.

## FUNCTIONALITY

The waste container **VIC-1000** is of the highest quality and perfect for the waste management of municipal governments, private and industrial companies, and large consumers.

- Perfect for different types of waste separation like paper, glass, bottles, etc.

## CUSTOMIZATION

We can label it with the legend of the type of material or your logo according to your needs.
