

WASTE OIL CONTAINER 1000

CUSTOMIZATION

We can label it with the legend of the type of material or your logo according to your needs.

DESCRIPTION

The material of the **WASTE OIL CONTAINER 1000** is medium-density polyethylene that gathers the highest fluidity conditions and the highest resistance to hits and breaks.

- Heavy duty.
- It includes UV protection that guarantees less wear and tear.
- The container has three parts: one container of 1000 L, a funnel, and a lid.
- The lid receives the bottles.
- The central stripe works as a funnel to filter the oil residues of the bottles.
- The smooth interior prevents the accumulation of waste.
- It has the option of adding three caster wheels of 3" for better transportation.
- Low costs of investment and maintenance.
- It's manufactured under international norms and standards for working with an automated waste collection system.

FUNCTIONALITY

The design of the **WASTE OIL CONTAINER 1000** makes for an easy manual or automatic transfer of residues.

- Since it doesn't have edges or defects, it facilitates the cleaning and discharge of waste.
