HEART-SHAPED CAP-COLLECTING CONTAINER

DESCRIPTION

The material of the **Heart-Shaped Cap-Collecting Container** is medium-density polyethylene which guarantees a long service life.

- Unique and remarkable design.
- It has an opening up front covered with an acrylic sheet that allows you to check how much has been filled.
- It includes an ad space on top.
- The receiving opening is on the side.
- It needs an access key to discharge that only authorized personnel use.
- It can be customized with artwork of your choice to highlight it.
- It enhances the surroundings where it's placed.
- Ideal for collecting bottle caps, plastic or glass bottles, and cans.
- Temperature resistant.
- UV protection.
- Installation mode: Insert 4 **Extralarge** dowels and **Ultrafix** screws on the 12-gauge sheet of 11.70 in. x 15.60 in. of the base.

FUNCTIONALITY

Perfect for parks, schools, colleges, beaches, streets, avenues, residential units, and government buildings, or we can adapt to any project you need.

- You can empty the collecting container by opening the door on the lower back; this door locks on a hollow space above that prevents it from closing at the time of discharge.

PATENT PENDING

CUSTOMIZATION

According to your needs, it can be labeled with your logo or the type of material it contains.
