

# GERMAN MODEL 825 PALLET BIN

CODE: BIN-ALEMÁN-825

## DESCRIPTION

The German Model 825 Pallet Bin provides reliable preservation of product integrity, contributing to waste reduction in agricultural operations, packing facilities, and industrial warehousing.

A smooth-wall structure combined with rounded edges enables quick and effective cleaning, minimizing residue retention. The stackable design enhances space utilization throughout logistics and storage processes

## FEATURES

Resists sudden temperature changes

These containers are used in industrial environments

Designed with forklift access for efficient handling

- Designed to withstand contact with acidic, basic, and alkaline substances, making it suitable for chemical, food, and agricultural environments
- Empty containers can be stacked to optimize space in storage areas and logistics operations
- Available options include a safety lid, drain valve, and reinforced legs to adapt to different operational needs
- All-side access enables efficient handling with forklifts or pallet jacks
- Reduces reliance on disposable packaging and extends service life by limiting wear-related replacement

## DIMENSIONS

 Length	47.2 in
 Width	39.3 in
 Height	37.4 in

Container color classification:

gre

gra

## DESIGN & USE

- This container is designed for the storage and transport of a wide variety of products
- A sealed, high-strength structure helps protect contents from physical impact and contamination, contributing to lower product loss
- Efficient handling reduces loading and unloading times and enables higher transport capacity within limited space
- A hygienic construction meets the requirements of industries with demanding cleanliness standards, including food and pharmaceutical sectors

**Versatile for demanding industries and food handling**
