

ECOL RT1 RECYCLING STATION

CODE: ECOL-560-RT1 / 280-RT1 / 420-RT1 / 560 RT2

DESCRIPTION

The RT1 Recycling Station provides an efficient approach to waste sorting and collection in urban spaces. Built with VIC 140 waste bins manufactured from high-resistance polymer, the system delivers durability, structural strength, and protection against UV exposure.

Focused on ease of use and straightforward maintenance, the station performs reliably in outdoor installations. An anti-vandal security system and built-in advertising area enhance value and visibility.

Ecol-560-RT1

Ecol-420-RT1

Ecol-560-RT2

Ecol-280-RT1

FEATURES

- VIC 140 waste bins manufactured from high-strength polymer
- Resistant to impacts, breakage, and extreme weather conditions
- UV protection for outdoor applications
- Anti-vandal system with security pin and dedicated key
- Optional deposit openings in multiple formats to ease filling and restrict large bag entry
- Available in configurations of 2, 3, or 4 waste bins, aligned or back-to-back

Resists sudden temperature changes

Recyclable, sustainable materials

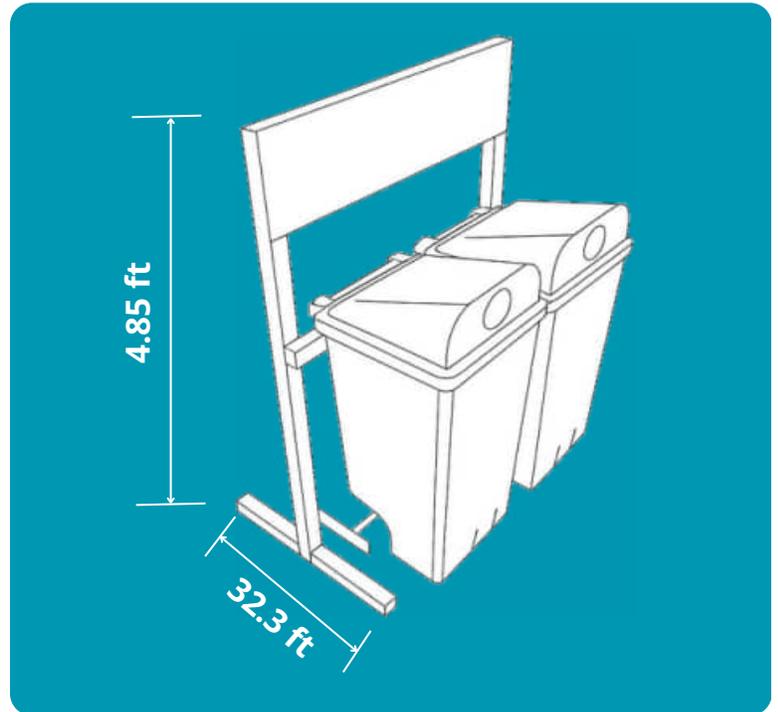

For outdoor installation

DIMENSIONS

| | |
|---|--------------------|
| Length <small>(Variable according to the number of waste bins)</small> | 3.6 - 7.2 ft |
| Width | 32.3 in |
| Height | 4.85 ft |
| Capacity | 74, 111 or 148 gal |

Container color classification:

- Organics**
- Non organics**
- Plastics**
- Mixed waste**
- BIHW**
- Recyclable materials**

DESIGN & USE

- Flexible configuration adapts to available space and waste bins quantity
- Promotes sustainability and environmental awareness initiatives
- Custom advertising panel suitable for branding or awareness campaigns
- Built for outdoor use in high-traffic areas
- Extended service life with low maintenance requirements

Make waste management simpler and safer
