

VANGUARD 2200 RECYCLING BANK

DESCRIPTION

- The **Vanguard 2200 Recycling Bank** is a large waste container useful for the collection of bulk waste.
- It can be placed alone or in sets as a recycling station and separating them by color.
- It includes four drain holes.
- It features two double-walled back doors and a lock with an 8 mm square key that is almost impossible to break.
- It includes a 6-gauge large woven polypropylene bag for lighter waste or of 8-gauge for bulk waste with four reinforced handles (two long and two short). Once filled, it ties up for its easy transportation and storage.
- It features a 14-gauge internal tube frame of 1" with four hooks for properly attaching the large bag granting it resistance and stability.
- It includes three plastic beams on the bottom that guarantee its resistance over time.
- It anchors to the floor with four 1/2" dowels and four 1/2" x 4 1/2" hex-head screws preventing robberies or acts of vandalism and guaranteeing its fastening once installed.
- It has a half-life of 10 to 15 years under normal operation and includes a two-year warranty against manufacturing and hidden defects.
- The material of the **Vanguard 2200** is medium-density polyethylene with a thickness of 5 mm and UV protection.
- Since it includes anti-graffiti protection, it cleans easily with soap and a towel.

CUSTOMIZATION
