

CLASSIC FLAT PLANTER

TIUM-CP55

TIUM-CP55

DESCRIPTION

This classic **FLAT** planter is manufactured from high-strength polymer.

The seamless design, with no joints or riveted parts, prevents stress concentrations that could compromise the structure, delivering superior strength and lasting performance.

- Designed to resist all weather conditions throughout the year
- Includes UV protection to maintain color and durability under strong sunlight
- Available either coated or uncoated

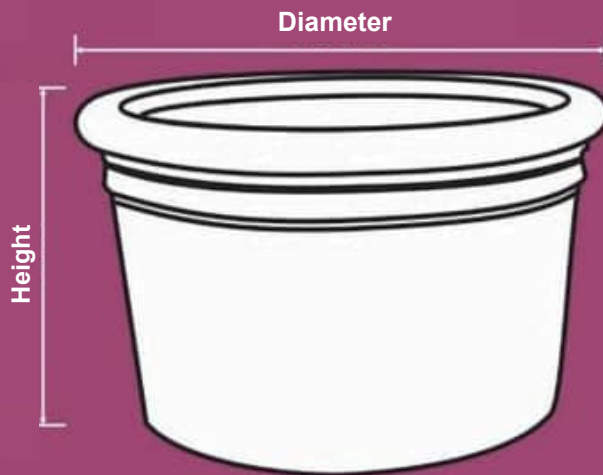

DESIGN & USE

This **FLAT** planter is designed to retain moisture, keeping plants hydrated for extended periods.

Ideal for displaying greenery in any setting — indoors or outdoors — including plazas, gardens, rooftops, homes, and offices.
