

LARGE OUTDOOR TREE PLANTER

CODE: TIUM-ARBOLEDA

DESCRIPTION

The Large Outdoor Tree Planter provides a robust, functional, and sustainable solution for tree planting in limited spaces or unsuitable soil. Manufactured from with heavy-duty, high-strength polymer, it combines durability and functional design to handle demanding environments and promote robust, healthy tree growth.

The planter's oversized capacity enables proper root and trunk development, while integrated drainage prevents water accumulation and root suffocation. Built to withstand impacts, UV radiation, and extreme climatic conditions, it guarantees long-term use. Additionally, the planter is manufactured using recyclable, environmentally responsible polymer.

FEATURES

- Large-scale planter engineered for big trees
- Built-in drainage channel ensures proper water management
- Resistant and durable:
 - Designed to absorb impacts
 - Withstands severe climatic conditions
 - UV-resistant finish
- Easy to place, versatile for indoor and outdoor spaces

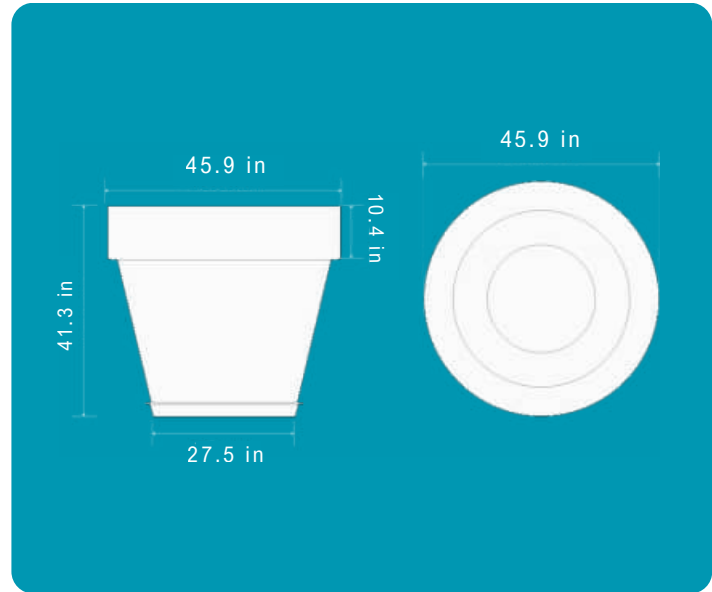

Resists sudden temperature changes

Built-in reabsorption mechanism

DIMENSIONS

 Top diameter	45.9 in
 Bottom diameter	27.5 in
 Height	41.3 in
 Weight	77.1 lb
